RE: Letter of Concern  
License No. 0487, Case No. 2789

Dear Dr. Vericcoli:

At its meeting on March 22, 2003, the Board of Osteopathic Examiners in Medicine and Surgery conducted an investigative hearing on the above-referenced complaint. That complaint alleged that you violated A.R.S. § 32-1854 (6) and (40) in that your management of the cases admitted to the Intensive Care Unit may not have met the standards of an admitting physician, that you may not have ordered all of the specialist consultations warranted, and that your level of communication with the specialists who were consulted may have been insufficient.

Based on the information available, their discussion with you, and the supporting testimony presented, the Board found there was insufficient evidence to conclude that your conduct constituted unprofessional conduct or to support direct action against your license. However, the Board voted to issue you this advisory **LETTER OF CONCERN**, because the Board believed your conduct, as described above, was of concern.

A Letter of Concern is a public document for five years from the date of issuance, and may be cited in future disciplinary actions against your license.

Sincerely yours,

Elaine LeTarte  
Executive Director
